

Ova46 & Ova55

by IsoNova

Whole Egg Product

DON'T FOLLOW THE STANDARD, *SET* THE STANDARD

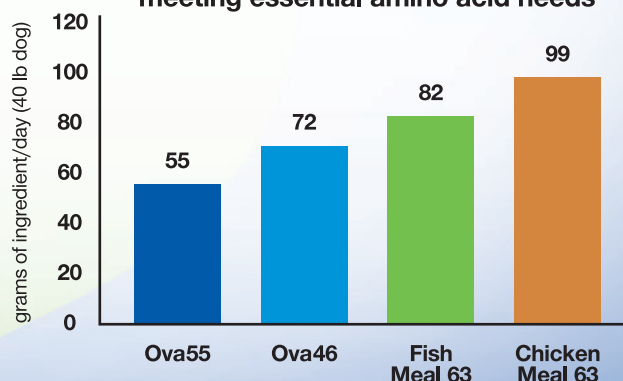

For pet foods, egg is the quality standard by which all protein ingredients are measured. Not only that, egg is the single most nutritionally complete whole food item, period.

IsoNova's Ova46 and Ova55 whole egg products deliver a balanced amino acid profile, energy, vitamins, and minerals to help you formulate better foods and treats. Whether you use egg as a feature ingredient or simply as nutritional assurance, you can't afford *not* to use Ova46 or Ova55 in your products.

Benefits:

- Industry-leading amino acid profile quality
- High protein-to-ash ratio (10:1 or better)
- A natural, label-friendly ingredient
- Shelf-stable
- Nutritionally efficient compared to other protein sources
- Allows for optimal formula flexibility

Ova46 & Ova55 are most efficient in meeting essential amino acid needs

Fewer grams of Ova46 and Ova55 can meet the essential amino acid needs, which demonstrates the efficiency of egg as a protein source.
