

Ova 46 & Ova 50

by IsoNova

Whole Egg Product

IsoNova[®]

Part of Diana
in SYMRISE NUTRITION SEGMENT

DON'T FOLLOW THE STANDARD, *SET* THE STANDARD

For pet foods, egg is the quality standard by which all protein ingredients are measured. Not only that, egg is the single most nutritionally complete whole food item, period.

IsoNova's Ova 46 and Ova 50 whole egg products deliver a balanced amino acid profile, energy, vitamins, and minerals to help you formulate better foods and treats. Whether you use egg as a feature ingredient or simply as nutritional assurance, you can't afford *not* to use Ova 46 or Ova 50 in your products.

Benefits:

- Industry-leading amino acid profile quality
- High protein-to-ash ratio (10:1 or better)
- A natural, label-friendly ingredient
- Shelf-stable
- Nutritionally efficient compared to other protein sources
- Allows for optimal formula flexibility

Specification:

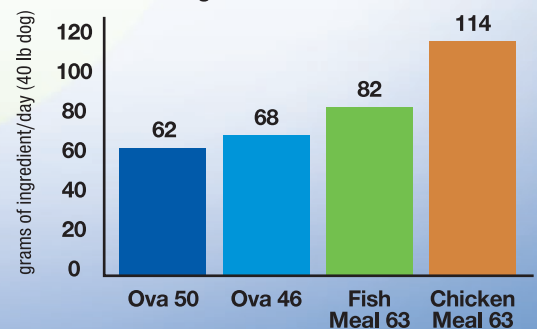

Ova 46

PROTEIN	FAT	MOISTURE	ASH
46% minimum	33% minimum	6.5% maximum	6% maximum

Ova 50

PROTEIN	FAT	MOISTURE	ASH
50% minimum	28% minimum	6.5% maximum	6% maximum

Ova 46 & Ova 50 are most efficient in meeting essential amino acid needs

Fewer grams of Ova 46 and Ova 50 can meet the essential amino acid needs, which demonstrates the efficiency of egg as a protein source.
