

# OvaBind™ 80 | by IsoNova

## Powerful pet food binding with(out) muscle

Egg protein has been a binder of choice in cooking and baking for centuries. Modern pet-food processing relies on binding more than ever. OvaBind™ 80 by IsoNova is the egg-based binder of choice in wet pet foods, treats, and high-meat-inclusion extruded foods. The binding functionality of OvaBind 80 is second to none, and it combines its high functionality with first-class protein nutrition. High-protein, low-ash, incredibly functional – that is OvaBind 80.

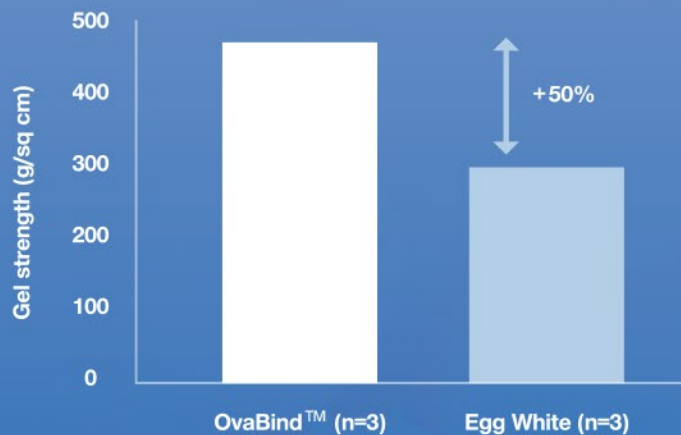

\*\* PATENT NO. 8,916,156

### OvaBind™ 80 Benefits:

- Binding functionality for use in
  - Wet foods for cats and dogs
  - Dry foods for cats and dogs
  - Treats
